Professional Summary

Information Technology undergraduate at SLIIT with practical experience in software development, web application development, full-stack development and AI-integrated projects. Skilled in React.js, Node.js, Java, Spring Boot, MySQL, MongoDB and modern software development practices. Seeking a software engineering internship to apply academic knowledge, gain industry experience and contribute to innovative software development projects

Education

Sri Lanka Institute of Information Technology (SLIIT)

June 2024 – Present

Bachelor of Science (Hons) in Information Technology (Specialized in Information Technology)

Projects

AI-Powered Automobile Marketplace – Mobile APP

May 2026

Tech Stack: React Native, MongoDB, Express.js (MERN stack), TypeScript, REST APIs, GitHub

- Developed a full-stack mobile application with secure JWT authentication, role-based access for buyers, sellers, mechanics and administrators.
- Implemented product management, order management, seller dashboard features and integrated RESTful APLs with a responsive mobile interface.
- Designed, integrated a Rating & Review System and deployed the backend to support live mobile-to-API connectivity.

Blood Donation Management System

Dec 2025

Tech Stack: Java, JSP, Servlets, MySQL, Maven Apache Tomcat

- Built a full-stack web app Using Java, servlets, MySQL with secure authentication and role-based access for six user roles
- Implemented appointment scheduling, donor eligibility tracking, blood inventory management, dashboards and reporting features.
- Integrated email, SMS notifications to provide real-time donor alerts and appointment updates.

Multimodal AI System for Visually Impaired People

Dec 2025

Tech Stack: Python, OpenCV, NumPy, AI / Deep Learning, Voice Processing, Spring Boot, MySQL

- Developed an AI-powered assistive system for real-time object detection, environmental awareness using OpenCV and deep learning.
- Built a data preprocessing pipeline for the COCO dataset, including data cleaning, annotation validation and class balancing.
- Incorporated a voice interaction module to deliver instant audio feedback, enhancing accessibility for visually impaired users.

Online Examination and Result Management System

June 2025

Tech Stack: java, Spring Boot, JSP, HTML, CSS, Bootstrap, File Handling, GitHub

- Built a full-stack examination system with user management, exam creation, and automated result processing using Java and Spring Boot.
- Applied Linked List and Selection Sort algorithms for student records management and ranking using a file-handling system
- Designed a responsive UI with JSP, HTML, CSS and Bootstrap for students and administrators.

Core Skills

Full-Stack Development, Frontend Development, Backend Development, MERN Stack, REST API Development Database Management, Object-Oriented Programming (OOP), Agile/Scrum.

Technical Skills

Programming Languages: Java, JavaScript, Python, c

Frontend Development: HTML, CSS, JavaScript, TypeScript, React.js, Bootstrap

Backend Development: Noode.js, Express.js, Spring Boot, RESTful APIs, JWT Authentication

Databases: MySQL, MongoDB (NoSQL), PostgreSQL

Machine Learning / AI: Python (Jupyter Notebook), pandas, CNN (EfficientNetB0)

Tools & Platforms: Postman, Git, GitHub, VS Code, Cloud nary, Intelli JIDEA, Ubuntu / Linux

Soft Skills: Communication Skills, Team Collaboration, Problem Solving, Technical Communication, Adaptability, Time Management, Critical Thinking

Certifications & Achievements & Participation

Front-End Web Development - University of Moratuwa	June 2026
AI / ML Engineer – Stage 1 – SLIIT	June 2026
Artificial Intelligence Master Training – LB Campus	Dec 2025
AI Research Poster (Think AI Expo) – SLIIT Northern Uni	Oct 2025
Web Design for Beginners – University of Moratuwa	Sept 2024
Microsoft Office – Center for online and Effective Learning (COEL)	Sept 2024

Languages

English – Professional Working Proficiency

Tamil – Native proficiency
